

TECHNICIAN

Job Title | Technician
Class | Regular, Full-Time
Reports to | Project Manager

GENERAL DESCRIPTION

The Technician will install audio, video, and lighting integrated systems in commercial venues, houses of worship, governmental buildings and businesses throughout the country while working as a productive team member to meet established project design and deadlines.

ESSENTIAL JOB DUTIES

- Ability to be a lead technician on a job site.
- Ability to follow directions given by the lead technician for a job or Project Manager to ensure proper adherence to the project scope of work.
- Gather and organize equipment, parts and tools needed to install the job.
- Make sure extra equipment and parts gets back into inventory.
- Proficient in the ability to read and decipher blueprints and schematics.
- Ability to use basic hand and power tools.
- Considerable skill in soldering techniques.
- Strong trouble shooting and problem solving skills.
- Ability to quickly process information, prioritize job tasks and meet deadlines.
- Experience with various techniques used in pulling wire and cable.
- Ability to work cooperatively and effectively within a team.
- Responsible for reporting on-site risks and issues to the lead technician to ensure efficient resolution and comply with project time-line and budget.
- Responsible for keeping track of personal time card which includes clocking in and out of the correct job assignment.
- Properly log all work in Connectwise providing details of time spent on the job sites.
- Help clean and straighten up the shop and company vehicles.
- Must have clean driving record and ability to pass background checks and drug tests for project security clearance at all times as requested by customers and clients.
- Must be able to travel to job sites throughout the country.
- The ability to work from elevated heights and lift heavy equipment.
- Other duties of a similar nature and level may also be assigned.

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES

- Experience in audio, video, and lighting installation is helpful.
- CTS certification preferred. Employee is required to obtain within first 6 months of employment.
- Strong verbal and written communication skills.
- The ability to work effectively within a team.
- Basic low voltage electrical knowledge.

PHYSICAL DEMANDS AND WORK ENVIRONMENT

Employee is regularly required to stand, walk, bend, stoop, use hands and fingers, reach and push with hands and arms. The employee is frequently required to sit, climb and balance. Work requires ability to perform job duties on scaffolding, ladders and at various heights as well as extensive overhead motion required in order to install equipment. Work requires ability to lift fifty pounds on a daily basis and be exposed to warm and cold environments. Clean driving record, background check, and drug testing required.

The job description does not list all the duties of this position; others duties of a similar nature and level may be assigned. The management of S&L reserves the right to revise this document at any time. This job description is not a contract for employment. Requirements may be modified to reasonably accommodate individuals with a disability.

DRUG AND ALCOHOL POLICY

In accordance with Georgia laws, S&L Integrated Systems maintains a drug-free workplace. It is our policy to maintain an environment that is free from controlled substances and/or the presence and use of alcohol. The Company has a Substance Abuse Policy that defines our stance on the sale, purchase or use of illegal drugs and alcohol. This policy includes our procedure for testing and remedial action if an employee is found to be in violation of the policy. The Substance Abuse Policy applies to employees, applicants, independent contractors, visitors and vendors. All employees are required to sign a separate statement acknowledging their understanding of this policy and consent for testing prior to employment.
